

SPECIFICATION

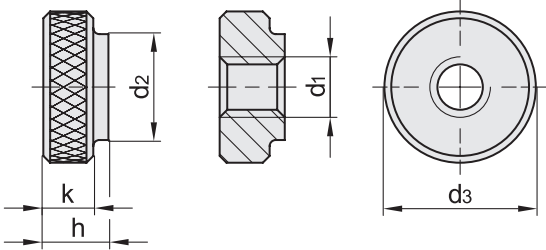

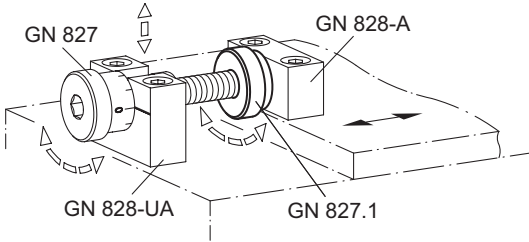

Stainless Steel AISI 304 **NG**
matte shot-blasted

FEATURES AND APPLICATIONS

Knurled nuts GN 827.1 are used with Adjusting screws GN 827 (see page) to secure settings and positions in place by counterlocking. For processing and assembly equipment on which attachments and mechanisms must be regularly exchanged, particularly simple adjustments can be achieved by combining adjusting screws GN 827 (see page), knurled nuts GN 827.1 and bearing blocks GN 828 (see page) of the types UA and UB to ensure that settings are retained even between uses.

Application example

Code	Description	d1	d2	d3	k	h	⚖
GN.82041	GN 827.1-M6x1-NG	M6x1	10	16	5	6	8
GN.82043	GN 827.1-M8x1-NG	M8x1	14	20	6	8	15
GN.82045	GN 827.1-M10x1-NG	M10x1	16	24	7	9	23
