

SPECIFICATION

Stainless Steel AISI 304 **NG**
matte shot-blasted

FEATURES AND APPLICATIONS

Knurled nuts GN 827.1 are used with Adjusting screws GN 827 (see page) to secure settings and positions in place by counterlocking. For processing and assembly equipment on which attachments and mechanisms must be regularly exchanged, particularly simple adjustments can be achieved by combining adjusting screws GN 827 (see page), knurled nuts GN 827.1 and bearing blocks GN 828 (see page) of the types UA and UB to ensure that settings are retained even between uses.

Application example

Conversion Table 1 mm = 0.039 inch	
d3	
mm	inch
16	0.62
20	0.78
24	0.94
