

IMPORTANT COMMUNICATION

UPDATE: COVID-19 DOES NOT HAVE ANY IMPACT ON ELESA MANUFACTURING FACILITIES

Monza (Italy), March 9th, 2020

Elesa is still actively and responsibly monitoring the evolution of the Novel Coronavirus (COVID-19) in order to exclude any impact on its employees and production activities, with the aim of ensuring continuity of supplies to customers.

The decree of the Italian Prime Minister issued on March 8th 2020 introduced further measures to stop the spread of COVID-19 on the entire national territory and in particular in Lombardy region and in 14 provinces of other worst-affected regions.

The measures introduced by the **Decree do not jeopardize production activities, work activities, and transportation of goods to and from the concerned areas.**

Therefore, **the measures put in place do not have any impact on Elesa's production activity.**

To ensure the continuity of shipments of goods, at the production site in Monza we have adopted preventive and precautionary measures for all Elesa operators and the carrier's employees. In particular:

- the reception and logistic terminal employees are equipped with protection and prevention medical devices and maintain the safety distance (1 meter) during loading and unloading operations;
- the delivery notes are transmitted electronically.

Furthermore, at the Elesa HQ in Monza we continue to take additional measures to protect the health of our employees and to guarantee the usual service to our customers.

- We encouraged Smart Working
- We have temporarily suspended customers' visits of our Sales Engineers
- We have limited meetings in person and encouraged the use of video conferencing systems
- We gave some sanitary directives to our employees
- We appointed our cleaning company to sanitize our premises more frequently during the day
- We have recommended all our employees to strictly follow the containment measures introduced by the Decree.

Of course the situation may change according to our National and Regional Government directives. If this is the case, we will inform you accordingly.

If you have specific questions related to this subject, please contact Elesa at info@elesa.com
