

IMPORTANT COMMUNICATION

NEW UPDATE: COVID-19 DOES NOT HAVE ANY IMPACT ON ELESA MANUFACTURING FACILITIES

Monza (Italy), March 12th, 2020

Elesa continues to monitor the evolution of the several measures adopted, on the Italian territory, to contain and contrast the COVID-19 spreading, in order to exclude any impact on its employees and on the production activities of its plants.

We feel the need and the duty to inform all our customers that, in compliance with the additional restrictions issued with the latest Prime Minister's decree on March 11th, **the production plants in Monza remain fully functioning and operating.**

Therefore, **the new measures that have been put in place do not have any impact on Elesa's production and logistics activity.**

To ensure the continuity of shipments of goods, at the production site in Monza we have adopted preventive and precautionary measures for the carrier's employees. In particular:

- the reception and logistic terminal employees are equipped with protection and prevention medical devices and maintain the safety distance (1 meter) during loading and unloading operations;
- the delivery notes are transmitted electronically.

Furthermore, at the Elesa HQ in Monza we continue to take additional measures to protect the health of our employees and to guarantee the usual service to our customers.

- We have intensified Smart Working initiatives as much as possible.
- We have temporarily suspended visits from our Commercial Officers to our customers, replacing them with phone calls and video conferencing to continue providing the requested support.
- We have limited meetings in person and encouraged the use of video conferencing systems in all internal offices.
- We have prepared sanitary safety measures in all production departments.
- We have commissioned the cleaning company operating in our factories and offices to sanitize the rooms more frequently.
- We have recommended all our employees to strictly follow the containment measures introduced by the DPCM.

Of course the situation may change according to our National and Regional Government directives. If this is the case, we will inform you accordingly.

If you have specific questions related to this subject, please contact Elesa at info@elesa.com
