

New Elesa catalogue – Accessories for Hydraulic Systems

All of Elesa's popular hydraulic systems related products have now been brought together in this convenient 140 page catalogue. Available on request from Elesa UK the new catalogue uses their graphic indexing approach to guide engineers and buyers through their wide range of oil plugs, breather caps, oil level indicators, column level indicators and float level indicators, many of which are suited to fluids other than oil dependant on their materials of construction.

The catalogue includes a comprehensive technical data section with guidance on plastic materials – strengths, hardness, surface finish; resistance – thermal, chemical, atmospheric, and standards compliance. Other materials are covered as are custom specials, plus tabulated generic technical data of use to the hydraulic specialist.

The Elesa "Accessories for Hydraulic Systems" catalogue can be provided free on request to Elesa UK or online at www.elesa.co.uk/en/catalogue-request.

Further information regarding Elesa products may be found at: www.elesa.co.uk or follow them on twitter: [www.twitter.com/ElesaUK](https://twitter.com/ElesaUK) – also see www.youtube.com/elesauk.
