

## Elesa strong industrial retaining magnets keep it all together

Elesa's industrial RMA flat disc retaining magnets and their sister RMP cylindrical series are shielded magnetic components with high performance and moderate dimensions. Coupled with RMY self-adhesive steel discs, they are of great value in retention of components, jigs, documents, signage and equipment.

The RMA flat rare earth magnet series is available in hard ferrite, samarium cobalt or neodymium-iron-boron and sizes from 6mm dia. up to 125mm. RMP cylindrical magnets are produced in aluminium-nickel-cobalt which has the ability to withstand temperatures up to 450°C. They are provided with an M4 or M6 threaded hole for mounting purposes.

Further information regarding Elesa products may be found at: [www.elesa.com](http://www.elesa.com) or follow them on twitter: [www.twitter.com/ElesaUK](https://twitter.com/ElesaUK).
