

Press Release

Elesa at PPMA Exhibition, 1-3 October @ NEC Stand No. E03

The PPMA Total Show 2019 is said to be the UK's largest ever event dedicated to processing and packaging machinery. As such is very much a place Elesa looks forward to networking with customers to discuss best practice and new solutions including many that have not yet been identified. Stand E03 at PPMA is exactly the place where engineers and buyers can explore opportunities in standard component products, service and technologies for industries including food, beverage, baking, pharmaceuticals, luxury goods, confectionery, cosmetics/personal care, tobacco/vaping/E-liquids, building supplies and materials, pet food/pet care, household products, contract packers, microbrewers and distillers.

Elesa will feature flagship machine elements including the [LM series stainless steel levelling feet with EHEDG certification](#), especially for food related environments where bio-level cleaning is required on a frequent basis.

Demonstrating their wide portfolio, Elesa will demonstrate [GLA roller slide guides](#) for use as conveyor side guides, as well as [VB three-arm hand knobs](#) for clamping/adjustment of equipment – also [MVAS safety vertical toggle clamps](#).

Where more active control is required, e.g. of machine rollers, then the Elesa stand will feature their [UC-RF control unit](#) which combined with DD series RF electronic position indicators, offers a PLC connected monitoring system which is particularly suitable for applications that require frequent format changes, facilitating the correct adjustment of the target-current position of the
