Elesa recognised as a Historical Trademark of National Interest

ELESA officially joins the "Special Register of Historic Trademarks of National Interest", a prestigious recognition established by the Ministry of Economic Development in January 2020 to strengthen the industrial property of companies that have been using their brand continuously for at least 50 years.

"We are proud to be part of this prestigious special register of historic trademarks of national interest" - explains Carlo Bertani, ELESA's Managing Director - "together with other Italian excellences from different industrial sectors which, like us, represent the Made in Italy in the world. It is a further confirmation that rewards our and our collaborators commitment in more than 80-year history of our company".
